#### COL. ERNST RETURNS.

Will Devote His Attention to the Canal Commission.

Col. Oswald H. Ernst, Corps of Engineers, has returned to this city from Chicago, where he transferred the engineer office to Lieut. Col. Bixby, Corps of Engineers, and will now devote his main attention to the affairs of the Panama canal commission, of which he is a member. Colonel and Mrs. Ernst are established at their residence, 1321 Connecticut avenue. Col. Ernst is well and favorably known in

official, social and business circles in this city through his efficient services as superintendent of public buildings and grounds during the administration of President Harrison. He was afterward superintendent of

Col. O. H. Ernst. (Photograph by the Harris-Ewing Company.)

the West Point Military Academy and held the office of division engineer of the north-west division, with headquarters at Chicago, when appointed a member of the Panama canal commission. He will retain his membership on the international commission ap-pointed to investigate the waterways between the United States and Canada and also the presidency of the Mississippi river sommission.
Sir Mortimer Derand, the British ambas-

sador, has informed Secretary Taft that the British government had, at the Secretary's invitation, selected Chief Engineer Hunter to serve as one of the consulting engineers of the Panama canal commission. Mr. Hunter has signified his willingness to serve. He attained considerable fame in the engineering world by his work in connection with the Manchester canal. enterprise, while costing less than the Suez canal, was more difficult from an engineering standpoint and required a higher order of engineering talent. Mr. Hunter is expected here in August. The French and German engineers who will be his colleagues have not yet been nominated.

morning. Friday showers; fresh southerly

The Plateau depression has crossed the Rocky mountains and advanced well into the Mississippi valley. It will doubtless join the area of low pressure in the St. Law-rence valley within the next twenty-four hours, and thus form a continuous trough of low pressure from the Mississippi valley northeastward to the Canadian maritime provinces. An area of high pressure is moving southeastward over the Dakotas, and pressure is high on both the Atlantic and Pacific coasts.

Thunderstorms have occurred during the night in a belt stretching from Kansas and Nebraska eastward to Ohio, and rain has fallen on the Pacific coast and Plateau re-It is decidedly warmer in north-central
